

Consilex Idrocon

Reinforcing repellent for masonry surfaces

Special balanced solution of fumed silica esters, silanes, siloxanes, in solvent, characterised by high penetrating ability in silicic media and by the effective dual reinforcing and water repellence action, for protective, reinforcing and hydrophobising treatment of mineral and stone media. It does not result in colour variations or alterations of breathability.

CUSTOMS CODE: 3824 9970

COMPONENTS: Single-component

APPEARANCE: Liquid

AVAILABLE COLORS: Transparent

PACKAGING AND DIMENSIONS: Plastic can 10 l - Plastic can 25 l - Plastic can 5 l - Pallet: 75 x (Plastic can 10 l)

FEATURES AND BENEFITS

Consilex Idrocon exerts a dual action of reinforcement and water repellence due to the peculiar reaction with atmospheric moisture and the silica present in the media. Products treated with Consilex Idrocon will benefit from improvements obtained in respect of the prevention of saline efflorescence, of mildew, algae, lichens, etc., of the drastic reduction in chalking, the reinforcement of the mineral masonry fabric and of the adhesive improvement of paints and coatings present, in general.

FIELDS OF APPLICATION

Protective, reinforcing, water repellent treatments of mineral and stone supports. Specific product for revitalizing, simultaneously providing a great consolidation and an annulment of the dust produced in the interstices, brick, stone or mixed arches, present in taverns, public premises and of historic monuments interest.

ALLOWED SUPPORTS

Plasters - Concrete - Cement-based or lime-based mortars - Drywall - Plaster (gypsum) - Fiber-cement - Bricks - Tuff - Mixed walls (bricks and stones) - Brickworks - Stone walls

PREPARATION OF SUPPORTS

The application surfaces should be clean, free of incrustations, dust etc. A preliminary wash with distilled water or steam It is recommended.

MODE OF USE

The support should be dry when applying. Apply the product as it is, with low pressure sprayer or brush with long bristles. The reinforcing contribution will be completed after 2-3 weeks of treatment. It is appropriate to apply the product on cold surfaces, protected from direct sunlight, in the thermal range +10 / +30°C.

APPLICATION METHODS

Brush - Sprayer

TOOL CLEANING

Nitro thinner

KEY FEATURES

 Shelf-life: 12 months

 Temperature of use: +10 / +30 °C

CONSUMPTION

From 0.20 to 1.00 litres of Consilex Idrocon for each square metre of surface to be treated, based on the porosity of the support.

STORAGE AND CONSERVATION

Protect from freezing. Store the product in its original packing, in a fresh and dry environment, avoiding frost and direct sunlight. Inadequate storage of the product may result in a loss of rheological performance. Protect from humidity.
