

Sanaxil P

Non-toxic breathable paint based on potassium silicates

Breathable, natural, non-toxic paint, for external and internal surfaces, for adhesion and microcrystalline structure, based on stabilized potassium silicate. Mineral-based, active formulation, with high natural mildewcide and anti-condensation properties, prepared according to the traditional recipes, for use in ecological building interventions, new buildings and in the restoration of vintage buildings and monuments.

CUSTOMS CODE: 3209 9000

COMPONENTS: Single-component

APPEARANCE: Liquid

AVAILABLE COLORS: Request available colors

PACKAGING AND DIMENSIONS: Pail 4 l - Pail 14 l

FEATURES AND BENEFITS

Sanaxil P consists of potassium silicate and natural pigments. It has very high breathability, remarkable mildewcide and antibacterial properties. It has no solvents, thinners, harmful substances and toxic emissions in general, and does not have thermoplastic effects.

FIELDS OF APPLICATION

Restoring and decorative paints for internal and external environments.

ALLOWED SUPPORTS

Plasters - Concrete - Cement-based or lime-based mortars - Prefabricated concrete - Paint

PREPARATION OF SUPPORTS

Application surfaces should be clean, free of soiling, crumbling and non-adhering parts, dust, etc., conveniently saturated with water until they reach the condition "saturated with dry surface". Pre-existing paints (washable, organic, solvent based etc.) must be thoroughly removed. Preliminarily treat the support with the fixative Sanaxil Fix.

MODE OF USE

Apply Sanaxil P, using a brush, roller or spray, in the number of coats required by the absorption condition of the support. Sanaxil P is "dust-free" (it has started to be consistent to the touch) after about 1 hour. It can be overcoated after 4-6 hours, while it will be dry in-depth after 10-16 hours. Sanaxil P can be used as such or diluted with Sanaxil Fix, at a rate of 15-20% by weight.

APPLICATION METHODS

Brush - Paint roller - Sprayer

TOOL CLEANING

Water

KEY FEATURES

-  Density: 1.46 kg/dm³
-  Solvent-free
-  To be applied in two coats
-  Use wearing protective gloves

-  Shelf-life: 12 months
-  Temperature of use: +8 / +30 °C
-  Use wearing protective glasses

TECHNICAL SPECIFICATIONS

UNI EN 1015-18
Coefficient of permeability **0.26 kg·h^{0.5}/m²**

EN 13300 - categoria
Wet abrasion resistance **2**

UNI EN 1015-19
Breathability **50 μ**

10' a 150°C
Dry residue **59 %**

pH **13**

CONSUMPTION

Apply from 0.30 to 0.40 liters of Sanaxil P per square metre of surface to be painted.

STORAGE AND CONSERVATION

Protect from freezing. Store the product in its original packing, in a fresh and dry environment, avoiding frost and direct sunlight. Inadequate storage of the product may result in a loss of rheological performance.

WARNINGS AND PRECAUTIONS

Do not apply on surfaces in gypsum, on non-hardened surfaces, on wet or hot surfaces, with direct sunlight. Avoid prolonged direct exposure of the fresh surfaces to the wind and the sunshine.

During application, protect glass, enamelled metals, aluminium, polished tiles etc., which may be opacified by accidental contact with silicate solutions.

Colours may vary slightly depending on the temperature conditions at the time of laying and during the drying and desiccation stages, the colour may be subject to slight variations. The general information, along with any instructions and recommendations for use of this product, including in this data sheet and eventually provided verbally or in writing, correspond to the present state of our scientific and practical knowledge.

Any technical and performance data reported is the result of laboratory tests conducted in a controlled environment and thus may be subject to modification in relation to the actual conditions of implementation.

Azichem Srl does not assume any liability arising from inadequate characteristics related to improper use of the product or connected to defects arising from factors or elements unrelated to the quality of the product, including improper storage.

Those wishing to utilise the product are required to determine prior to use whether or not the same is suitable for the intended use, assuming all consequent responsibility.
